Copps Coliseum

VICTOR K. COPPS TRADE CENTRE/ARENA

HAMILTON · ONTARIO · CANADA

Copps Coliseum

Victor K. Copps
Trade Centre/Arena

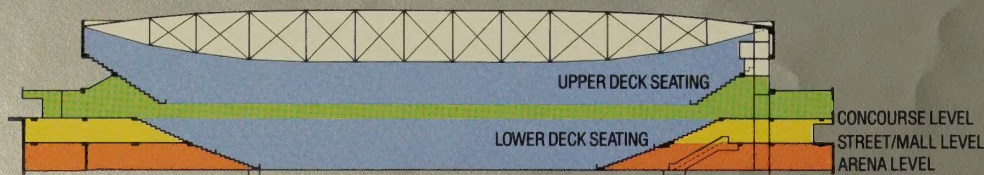

A complete sports, entertainment and trade/consumer show facility.

The City of Hamilton is situated in the heart of southern Ontario's Golden Horseshoe. It is midway between Toronto (72 km/45 mi.) and Buffalo (97 km/60 mi.). Hamilton draws from a market of 4 million people within one hour's drive of the city.

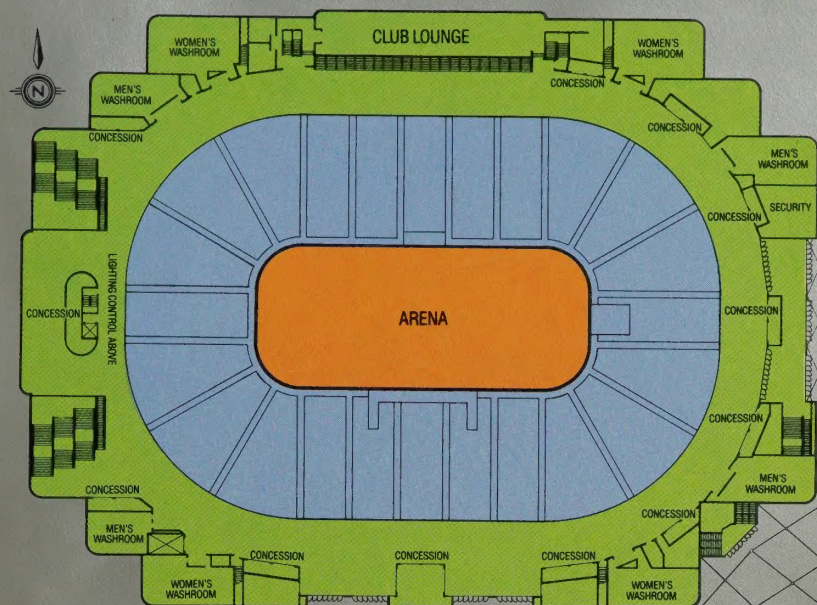

Copps Coliseum is perhaps the most ambitious project in Hamilton's extensive \$250 million Downtown Redevelopment Programme. This exciting \$42.7 million multi-purpose complex has been funded primarily by the City of Hamilton, with matching contributions of \$5.8 million from both the federal and provincial governments.

Located at the corner of Bay Street and York Boulevard in downtown Hamilton, Copps Coliseum is directly connected to Hamilton Convention Centre and Hamilton Place Theatre. Together they

offer one of the premiere facilities packages in North America for sporting events, entertainment, trade/consumer shows, and conventions. These three facilities are managed and operated by The Hamilton Entertainment and Convention Facilities Inc.

View**

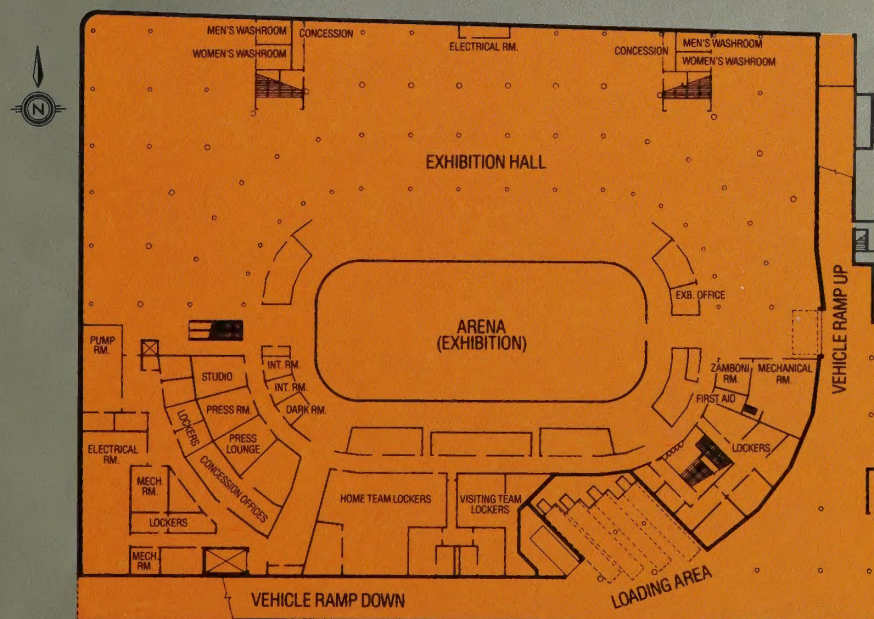

Main Concourse Level

Access to all seating is available from the Main Concourse Level. Twelve concession stations, private boxes, a club/lounge, and a special area for wheelchair users complete the layout of this level.

Street/Mall Level

This is the main entrance level from Bay Street. Escalators run from here up to the Main Concourse and down to the Arena and Exhibition Hall – as do passenger and freight elevators. Coliseum administration offices are also on this level along with 3,066 sq. m (33,000 sq. ft.) of retail space. This retail space adjoins Lloyd D. Jackson Square which has 50,166 sq. m (540,000 sq. ft.) of retail space and 92,900 sq. m (1 million sq. ft.) of office space.

Arena and Exhibition Hall Level

A street-level ramp allows direct vehicle access into both the Arena and Exhibition Hall. Couple this with four loading docks, and it's easy to understand how move-in and move-out times are greatly reduced. Also located on this level are dressing and locker rooms, a first aid station, a TV studio, media facilities and a concession area.

Facts & Figures

Ready for Use: December, 1985

Exhibit Space:

Exhibition Hall – 5,667 sq. m
(61,000 sq. ft.)
Arena Surface – 2,415 sq. m (26,000 sq. ft.)
Main Concourse – 2,787 sq. m (30,000 sq. ft.)
Gross Exhibit Space – 10,869 sq. m
(117,000 sq. ft.)

Ice Surface:

NHL size – 26 m x 61 m (85 ft. x 200 ft.)

Seating Capacity:

Permanent Seating – 17,500 approximately.
Floor Seating – 2,000 approximately.

Ceiling Height:

Arena Surface – 19.5 m (64 ft.) to bottom chord
of truss.
Exhibition Hall – 3.8 m (12 ft. 6 in.)
Main Concourse – 3.7 m (12 ft.)

Floor Load and Type:

Arena and Exhibition Hall
– 28.72 KPA (600 p.s.f.)
– finished (hardened) concrete.
Main Concourse
– 11.97 KPA (250 p.s.f.)
– finished (hardened) concrete with silicone seal.

Columns:

Exhibition Hall – 72 at 9.1 m (30 ft.) on centre.

Climate Controlled:

Yes.

Loading Entrance:

Entrance from vehicle ramp to Arena and
Exhibition Hall – 4.2 m (13 ft. 10 in.) high x 6.7 m
(22 ft.) wide.
Vehicle ramp entrance from Bay Street –
4.7 m (15 ft. 6 in.) high x 6.7 m
(22 ft.) wide.
Vehicle ramp exit to York Blvd. – 4.7 m
(15 ft. 6 in.) high x 6.7 m (22 ft.) wide.

Loading Docks:

4, with levellers.

Power:

120/208V, three phase, wall outlets.
600V, three phase, available in wall boxes.
